The Globe District Boom.

At no time since the organization of the District has the Globe been in a better condition than at the present time. Her possibilities have never seemed so great and capitalists have never been as willing to invest and develop as they are now. When the district was first discovered the rich surface ores gave it considerable prominence for a time, but it fell into the wrong hands, several feeble attempts at milling failed. The public faith was shaken. The great discoveries in Pima county drew the attention of capitalists in this direction and the Globe was left to struggle in comparative quiet. During the last year the rush has been to Tombstone, recently Patagonia has been added and nothing but actual merit could attract in other directions. That the Globe possesses this merit is evident from the recent bullion shipments from that district as well as the development and sale of mines.

A considerable sum of money is \$200,000, and yet this is the sum paid for a controlling interest in the Mack Morris mine. The Isabella mill and enterprise was a fraud and a failure, but under the "reform" management of Major Sisson the mill is running nicely with a profitable yield of bullion. The Miami mill, which stood 18 months on Pinal creek without paying expenses, and finally burned down, is now to be rebuilt and the contracts for the greater portion of the work have already been let. The Silver Nugget Mining Company are about to commence a mill and the purchasers of the Mack Morris will doubtless have a mill up within six months.

These operations above ground indicate what is being done below the surface, and are an assurance that the developments in the various ledges warrant a considerable outlay of capital in machinery, etc. for the proper reduction of the ores. The miners are confident, visitors speak cheerfully of the prospects and general reports are very encouraging. Doubtless the Globe is on the verge of an era of great prosperity and the expectations of those who have waited long and patiently are about to be realized.

From this brief review of the situation it will be seen that the trade with the Globe District is a matter of increasing importance with the people of this section. A good natural location and a preference should not deter us from watching closely every avenue of trade with a view of directing Tucsonward every possible source of wealth and business. We now have it within our power to do this, but unless we act with prompt energy the day may soon come when these possibilities will have passed beyond our reach, leaving only a trifling residue of regret.

Sierra Mojada.

From a letter dated City of Mexico, September 29th, and written by Senor Eduardo Urueta to a friend in this city we are permitted to copy the following:

"A grand discovery has been made between Chihuahua and Coahuila, forty leagues northeast of Cuerturo Cienegas and the same distance from the Rio Grande. They have discovered ledges of silver which are really fabulous. These they say are many yards wide and several leagues long and which yield from forty ounces per 350 pounds to one-half pure silver, and the country is rapidly filling up. From Parral there have gone 500 people and companies are forming in every part. Here every one is talking about the discovery and companies are also being formed. I have recently talked with two Senators who have been on the ground, and they pronounce it wonderful and say it is not possible to calculate its importance, but those who are acquainted with California say this is greatly superior. You may discount as much of this as you please, but I wish you to know that everyone here is talking of the discovery and the papers are full of it.

The General Government is thinking of declaring the Sierra Mojada country Federal territory, although it is yet very questionable whether it belongs to Chihuahua or Coahuila.

A Wrong Impression.

We have received a photograph from Phenix representing a building, which at first glance we took to be the boss brewery recently advertised in the Herald. A friend of ours suggested it might be the headquarters of a livery stable, another said it resembled a down East engine house, while still another said it reminded him of a place where they sell pork. Upon closer inspection we discovered a brand just above the big front door which read, "The Phenix Herald." Hem!—beg pardon; really it is an excellent picture of a stately edifice. Please touch us lightly Mac.

Ten Year Old.

Last week THE WEEKLY CITIZEN celebrated its tenth birthday and starts off on Vol. X with greater vigor than ever. The last year especially has been one of great prosperity and the volume upon which we have just entered promises still greater results. The straightforward energetic management of THE CITIZEN has made it the people's journal.

A private despatch from Florence says the jury in the Loss case brought in a verdict of "not guilty."

LATEST TELEGRAMS.

Opening of Authors' Carnival, San Francisco.

Reunion in North Carolina of the Blue and the Gray.

Russia Preparing for the Coming Conflict.

[Special to THE CITIZEN.]

Carnival—Grant.

SAN FRANCISCO, October 24.—The Authors' Carnival opened last evening and is a pronounced success. Gen. Grant dined with Senator Booth at Sacramento last evening. About fifty distinguished gentlemen were present.

Stocks.

SAN FRANCISCO, October 24.—Tip Top, \$1.25; Silver King, \$6.50.

Reunion.

SALISBURY, N. C., October 24.—A reunion of Carolina soldiers of both armies is being held. Over 10,000 people are present and the town is gaily decorated. Gov. Jarvis, Senator Vance and others delivered addresses.

Angel Plunge Danced by a Corn Cornerer. PARIS, October 23.—Signor Topoli, a private banker, committed suicide yesterday on account of impossibility of filling some large corn contracts. His liabilities were \$40,000 florins.

Peter's Pence.

ROME, October 23.—Peter's pence collection this year is larger than this time last.

Ominous Signs.

BERLIN, October 23.—The cast steel works of A. Barkhoff has been ordered to suspend large private orders, every resource being required to execute enormous orders of the Russian Government for steel cannon and other implements of war.

New Mexico Items.

From the New Mexican of October 18: Dr. Thomas, agent for the Pueblo Indians, has gone to Cimarron to try and effect the removal of the Jicarilla Apaches to their reservation.

Lieut. Col. Price was in town a few days during the week. He has gone to Arizona to join his regiment, the Sixth Cavalry.

Mr. W. S. Fletcher, of Washington, D. C., special agent for the Interior Department, arrived in Santa Fe this week.

At a meeting on the Indian situation, called by Gov. Wallace, committees of safety for the various counties were appointed.

Through the indefatigable energy of General Atkinson, one hundred stand of arms and ten thousand rounds of ammunition were shipped to La Mesilla yesterday. The General has provided relays at Beranillo, Las Lunas and Socorro, which will travel day and night and will probably reach La Mesilla next Sunday.

The Shakespeare President. At a directors' meeting of the Shakespeare Gold and Silver Mining Co., held at their office in St. Louis, General John Boyle was elected president and treasurer of the company.

From the high social and financial position of General Boyle, the success of this New Mexican mining enterprise is secured. We understand that reduction works will be contracted for at an early day.—New Mexican.

The Las Vegas Gazette says the railroad will be built to Santa Fe as rapidly as possible. It is likely the branch will be built there previous to the extension of the road to the Rio Grande. That will tend to neutralize any great rush to a point on the river, as the ancient city will bid for trade, and as she has money, will be liable to hold it against any mushroom towns.

Train Robbed.

Last Tuesday night the east bound train on the A. T. and S. F. railroad, was stopped by two armed men about half a mile from Las Vegas, in a deep cut. The passengers were in charge of the express box, was relieved of \$300, the property of the express company.

It is rumored that good ore has been struck on the east side of the Contention hill, in one of the parallel locations, where no ledge had been previously discovered.

The Maxwell Land Grant trial is now pending at Cimarron, N. M., with Chief Justice L. Bradford Prince presiding Judge.
